

Energy Glo

An energy supplement for mature performance horses

- > Energy Glo promotes more usable energy utilization through the combination of the finest “all-natural” oils available.
- > Formulated with natural plant oils, vitamins and crucial trace minerals to:
 - Improve energy
 - Improve appetite and forage digestion
 - Help to avoid nutritional anemia
 - Increase natural healing process
 - Improve hair coat
 - Increase enzyme function
 - Improve growth and skeletal soundness
 - Improve reproductive performance
- > Will not cause colic or founder

GUARANTEED ANALYSIS

Total Fatty Acids	MIN	93.00 %
Unsaponifiable Matter	MAX	0.20 %
Insoluble Impurities	MAX	0.10 %
Free Fatty Acids	MAX	1.00 %
Moisture	MAX	0.50 %
Zinc (Zn)	MIN	1,000 ppm
Manganese (Mn)	MIN	850 ppm
Copper (Cu)	MIN	350 ppm
Cobalt (Co)	MIN	50 ppm

INGREDIENTS

Refined Soybean Oil, Refined Corn Oil, Refined Sunflower Oil, Canola Oil, Wheat Germ Oil, Zinc Proteinates, Manganese Proteinates, Copper Proteinates, Cobalt Proteinates, Natural and Artificial flavor.

FEEDING DIRECTIONS

Tizwhiz Energy Glo is intended as an energy supplement for mature performance horses. Energy Glo will provide calories necessary for exercise performance and fatty acids for improved skin and hair condition. Feed Energy Glo on top of the grain concentrate portion of the diet at a rate of 1 to 2 ounces per head per day for horses in light training and at a rate of 2 to 6 ounces per head per day to horses in moderate to intense training. To prevent loose stools, gradually introduce Energy Glo into the diet during a two-week adaptation period. If loose stools should occur, decrease the amount of Energy Glo being fed until the horse properly adapts to the diet.

DO NOT FEED TO SHEEP
